Forecast for Sunday 05 Jun 2022

Weather: Cloudy with outbreaks of occasionally heavy rain or showers developing across all areas. Rain may turn thundery at times and will become persistent through the morning. Rain becoming lighter but generally persistent into the afternoon. Further heavy rain or showers are then possible through the late afternoon and evening.

Chance of cloud-free hill tops above 600m: 30% in the west, but less than 10% for eastern areas throughout.

Low cloud and visibility: Bases down to around 400m at times in the east through the early hours. Bases then generally around 500m in the rain or showers, perhaps down to 300m in the heavier outbreaks. Visibility generally good under the cloud, but becoming poor or very poor in rain or heavy rain.
